Teaser	Training companies can apply for ESF+ funding for the training of young people in Bavaria whose chances on the training place market are reduced (Fit for Work - Chance Ausbildung).
Volltext	<p>Purpose</p> <p>The purpose of the "Fit for Work - Training Opportunities" funding program is to increase the chances of finding a company-based training position for all young people. The aim is to help young people who find it difficult to obtain a training place due to the situation on the training market, their personal circumstances, educational and qualification deficits or poor social and personal skills (disadvantaged young people) to enter working life and successfully complete their training. Companies are therefore financially supported in the implementation of such training relationships.</p> <p>Object</p> <p>The object of the funding is in-company training relationships in recognized training occupations within the meaning of the Vocational Training Act or the Crafts Code with young people for a maximum of 16 months (approval period).</p> <p>Recipients of funding</p> <p>The "Fit for Work - Training Opportunities" grant from the European Social Fund Plus is aimed directly at companies providing training. Training companies based in Germany are eligible to apply,</p>
