Teaser	The vocational academy lasts 2 to 3 school years and prepares students for a higher professional career.
Volltext	Admission requirements: As a rule, an intermediate school-leaving certificate and a corresponding vocational qualification. However, the technical colleges differ in terms of admission requirements, duration of training and qualifications. Interested parties should enquire directly with the respective school. The respective admission requirements are regulated in §§ 4 to 8 FakO. Degrees: The state final examination confers a state-defined professional title. Graduates of specialist academies in certain fields can take part in a supplementary examination. Those who pass it are entitled to study at a university of applied sciences. Those who receive an overall grade of "very good" in the final examination of the technical academy and in the supplementary examination are awarded the subject-specific higher education entrance qualification. This entitles the holder to study certain courses at academic universities in accordance with the Qualifications Ordinance and the list of the assignment of certificates of subject-specific higher education entrance qualification to higher education courses. The vocational academies offer the following courses: • Brewing and beverage technology, • curative education, • medical technology, • Interior and object design, • economics, • social pedagogy,

Modul	Sachverhalt
	• languages and international communication, • nutrition and supply management, • Performing arts and • Restoration training for furniture and wooden objects
