- Change of name or place of residence of authorized representatives,

Kosten	Fixed fees are charged for entries in the commercial register in accordance with the Commercial Register Fees Ordinance. In addition, notary fees are regularly incurred for the preparation of the draft or notarization of the required commercial register application.
Verfahrensablauf	You can register with the commercial register on site or online with a notary. The notary will notarize the application, check its registrability and send it as an electronic document with a qualified electronic signature to the electronic court and administrative mailbox of the competent registry court. If desired, the notary will also prepare the draft for the application and provide you with comprehensive advice on this. The registry court enters the entry in the court's internal database and also publishes the entry on the Internet (www.handelsregister.de). You will receive a notification of registration. If there are important changes, you must also register these with a notary for entry in the commercial register.
Bearbeitungsdauer	The registration court decides on the entry immediately after the application has been received. If all documents are available and no objections from the court are necessary, entries are usually made within a few working days.
Frist	There is no deadline. Changes must be notified promptly. The registry court may enforce the registration by imposing a penalty payment if the registration is not made.
