furnishing;

- Expenses for acquisition and ancillary construction costs, in particular planning costs, valuation costs, approval costs, land registry costs and estate agent costs;
- expenses for the relocation of the women's shelter including services.

Type and amount

The funding is granted as a subsidy. The type of grant is a project grant.

The state grant is awarded as part of project funding as fixed-amount funding.

The amount of the grant is up to 50,000 euros per additional women's shelter place created or adapted to meet demand, up to a maximum of 90% of the eligible expenditure. If the measure fulfills both of the funding requirements listed under No. 4.1 of the guidelines at the same time for each place, this does not increase the grant.

Voraussetzungen

The central associations of non-statutory welfare organizations or providers of state-funded women's shelters that are members of a central association are eligible to apply for and receive funding. Recipients of funding may also be providers of new women's shelters that are members of an umbrella organization

of non-statutory welfare services, who undertake to meet the funding requirements in accordance with No. 1.4 of the Guidelines for the Funding of Women's Shelters, Specialist Advice Centres (Emergency Calls) and Intervention Centres in Bavaria, as amended, after commencement of operations, and for whom a positive conclusion of the procedure in accordance with No. 5.3 of the Guidelines for the Funding of Women's Shelters, Specialist Advice Centres (Emergency Calls) and Intervention Centres in Bavaria, as amended, is to be expected.

Funding is provided for measures that serve to

- to create and move into additional women's shelters in order to ensure the provision of one shelter place per 10,327 inhabitants aged between 18 and 80 years, whereby the occupancy rates of the women's shelter in question over the past five years must also be taken into account when assessing the need,
- to adapt additional or existing places in women's shelters to meet demand by means of structural or technical modifications, in particular for the use of physically disabled women, women with visual impairments or women with hearing impairments or to meet the special needs of women with older sons or women with many children, and to move into these.

Funding will only be provided if a statement has been agreed between all municipalities assigned to the women's shelter, which confirms the necessity of the measure and the willingness to bear any follow-up costs. The statement is not required for measures to adapt to special needs, the cost of which does not require municipal co-financing and which do not entail any follow-up costs for the assigned municipalities.

The grant recipient must provide at least 10% of the eligible expenditure from its own funds.

All funding requirements can be found in the guidelines for funding additional women's shelters and for adapting women's shelters to special needs (see "Legal basis").
