Hinweise	<p>In addition to administrative costs, the school authority may also claim a remaining amount from the remuneration for the necessary personnel expenses. For this purpose, the school authority must compare the corresponding payment cases of the State Office of Finance (with personnel numbers) with the corresponding payroll accounting. The corresponding evidence must be kept available for verification. Any surplus from the remuneration for personnel expenses must be taken into account. School expenses pursuant to Art. 34a para. 1 sentence 1 no. 2 in conjunction with Art. 34 sentence 1 BaySchFG are not eligible. Art 34</p>

sentence 1 BaySchFG.

Actual and necessary expenses pursuant to Art. 34a para. 2 BaySchFG may be claimed up to a maximum of EUR 40 per month per pupil with special educational needs or within the meaning of § 2 KraSO. These total costs may not take into account the pro rata costs for pupils without special educational needs and for the pre-school sector.

A transitional regulation applies for billing from January 1, 2018 to December 31, 2028. This is intended to make the transition to the new funding easier for schools that charged school fees up to the relevant cut-off date and to enable the cost structure to be adjusted to the new funding.

Pupils without special educational needs are not covered by the hardship rule. The hardship regulation does not apply to the pre-school sector. Only costs for the school can be included in the hardship scheme. Under certain circumstances, the provider must allocate the costs between the different facilities (e.g. pre-school facility and school) appropriately (e.g. on the basis of the funding decision for personnel cost reimbursement cases, area key, number of pupils, etc.).
