Sachverhalt

vocational school for nursing.

Recipient of the grant

The recipients of applications and funding are state-approved or state-recognized vocational schools for nursing in Bavaria, provided that these providers are legal entities under public or private law and operate on a non-profit basis (Art. 29 para. 2 BaySchFG by analogy).

Eligible costs

Eligible expenses are the rent or the fee for the transfer of use of the school premises and facilities in the case of a form of contract other than rent.

Type and amount

The grant for the rent or another contractual form for the provision of the school premises and facilities is provided as a non-repayable grant as part of fixed-amount financing. The provider receives a lump sum per square meter of the eligible usable area of the vocational school for nursing per school year. The lump sum depends on the school location. It is shown in the following overview: Planning region 14 (state capital Munich; districts of Dachau, Ebersberg, Erding, Freising, Fürstenfeldbruck, Landsberg am Lech, Munich, Starnberg): 378 euros/sqm Upper Bavaria without planning region 14: 190 euros/sqm District capital Landshut: 171 euros/sqm Lower Bavaria without district capital Landshut: 135 euros/sqm District capital Regensburg: 252 euros/sqm Upper Palatinate without district capital Regensburg: 180 euros/sqm Upper Franconia: 134 euros/sqm Cities of Nuremberg and Erlangen: 192 euros/sqm Middle Franconia without the cities of Nuremberg and Erlangen: 156 euros/sqm District capital Würzburg: 180 euros/sqm Lower Franconia without the district capital of Würzburg: 156 euros/sqm District capital Augsburg: 192 euros/sqm Swabia without the district capital of Augsburg: 129 euros/sqm Eligible usable space is the area of the school premises and facilities provided that is required for the space needed in accordance with

the German School Construction Ordinance (SchulbauV). If the actual usable area is less, this is decisive. If the actual expenditure for the transfer of the school premises and facilities is less than the calculated amount, the grant is reduced to the actual expenditure. Only the payments for the transfer of use itself are taken into account for the actual expenditure, not for the costs arising from the operation of the school premises (ancillary costs).
