Teaser	You can have the equivalence of an examination certificate obtained outside the scope of the Farriery Act or abroad confirmed and have it taken into account for state recognition as a farrier.
Volltext	<p>A farrier, officially called a farrier in Germany, is a specialist in the care (trimming) and shoeing of animal hooves with horseshoes or other materials. He traditionally makes the horseshoes and horseshoe nails himself in the forging process or adapts the horseshoes to the shape of the hoof. The work also includes the treatment of injured and diseased hooves.</p> <p>Anyone who has not passed an examination to become a farrier within the scope of the Farriery Act or abroad must first have their examination certificate equated with the examination certificates under the Farriery Ordinance in order to obtain state recognition as a farrier.</p> <p>The legal requirements for the equivalence of the examination certificate and state recognition as a farrier are regulated in the Ordinance on the Equivalence of Examination Certificates Acquired Outside the Scope of the Farriery Act or Abroad with the Examination Certificates under the Farriery Ordinance and their Consideration for State Recognition (Farriery Recognition Ordinance -</p>

the European Federation of Farriers' Associations (EFFA)) and

- can prove that they are authorized to take up and practice the profession of farrier or farriery instructor in their country of origin and
- an equivalence assessment carried out by the competent authority has established that the skills, knowledge and abilities demonstrated by the documents submitted are equivalent.

## Kosten

The charging of costs (fees and expenses) in connection with the implementation of an equivalence procedure and (or) recognition procedure is governed by the Costs Act (KG).

If the equivalence of an examination certificate and (or) state recognition as a farrier in accordance with the HufBeschl-AnerkennV is possible, the fee range is EUR 5 to EUR 25,000 (see Art. 6 para. 1 sentence 3 KG).

When determining the fee within this fee range, the administrative effort of all authorities and bodies involved in the official act and the significance of the matter for the parties involved must be taken into account.

If an application for the equivalence of an examination certificate and (or) state recognition as a farrier is to be rejected, the fee to be set for the official act applied for (see above) can be reduced to one tenth.

If an application is withdrawn or otherwise settled before the official act has been completed, a fee of between one tenth and three quarters of the fee to be set for the official act applied for shall be charged, depending on the progress of the case and the expenses. The minimum fee is EUR 15, but no more than the fee stipulated for the official act (see Art. 8 para. 2 KG).

The charging of expenses is governed by Art. 10 of the Costs Act. These may be incurred in particular in the case of a postal delivery order.

qualification is subsequent state recognition. In principle, a distinction must be made between two successive steps:

1. Equivalence of examination certificates obtained outside the scope of the Farriery Act or abroad with the examination certificates according to the Farriery Ordinance and their consideration for state recognition
2. Recognition as a state-certified farrier with the positive decision on the equivalence of examination certificates acquired abroad.

In principle, both applications can be submitted separately. However, for reasons of administrative efficiency and cost, it is advisable for applicants to apply to the competent authority for the equivalence of their qualification and state recognition as a farrier at the same time.

**Bearbeitungsdauer**

The competent authority confirms receipt of the documents to the applicant within one month and informs the applicant whether any documents are missing for the decision. A decision on the equivalence of the examination certificate and state recognition must be made no later than three months after submission of the complete documents. This deadline may be extended by one month in justified cases that are particularly difficult to assess. If there are doubts about the authenticity of the certificates and training certificates submitted or about the rights conferred by them, the competent authority or body in the country of origin may verify the authenticity or the rights conferred by them; the expiry of the deadline is suspended for this period. Depending on the complexity of the case, the processing of an application usually takes between 1 and 3 months, in particularly difficult cases up to 4 months.
