Teaser	In Bavaria, people who are blind or severely visually impaired receive a monthly allowance for the blind to compensate for the additional expenses caused by these disabilities.
Volltext	<p>Blind and severely visually impaired people receive a blind person's allowance regardless of whether they are in need.</p> <p>The allowance for the blind is paid monthly in the amount of 85% of the assistance for the blind according to the Social Security Code Twelfth Book - Social Assistance - (SGB XII), i.e. EUR 748 from July 1, 2024. For severely visually impaired people, it amounts to 30 percent of this amount, i.e. EUR 224.40 from July 1, 2024. Deaf-blind people will receive EUR 1,496 from July 1, 2024 and deaf-visually impaired people EUR 448.80 from July 1, 2024.</p> <p>If the blind or severely visually impaired person is in a home or similar facility and the costs of the stay are covered in whole or in part by funds from public service providers or by funds from private care insurance, the allowance for the blind is reduced by the amount paid from these funds, but by no more than 50%.</p> <p>Home care benefits from statutory or private long-term care insurance are partially offset against the allowance for the blind. This also applies to benefits paid due to a need for care under other domestic or foreign legislation. The allowance for the blind is reduced accordingly by 159.62 euros if the entitled person receives benefits (care allowance, benefits in kind or combined benefits) according to care level 2 from statutory or private care insurance. allowance for the blind is also reduced by a maximum of this amount if the entitled person is granted benefits due to a need for care under other domestic or foreign legislation. The allowance for the blind is reduced by EUR 197.67 if the entitled person receives benefits according to care degree 3, 4 or 5.

Benefits to compensate for additional expenses due to blindness or severe visual impairment under other domestic or foreign legislation are fully offset against the allowance for the blind.

Benefits received from civil law claims (e.g. claims for damages under the German Civil Code - BGB) or from other claims to compensate for additional expenses due to blindness or visual impairment are offset in accordance with Art. 4 Para. 3 BayBlindG.

If the monthly amount payable is less than EUR 20 after the offsetting of benefits for home care or due to the need for care (including in the case of benefits received under other domestic or foreign legislation), a monthly allowance of EUR 20 will be granted.

The entitlement to blind person's allowance arises on the first day of the month in which the conditions are met, at the earliest on the month of application.

Persons who receive compensation benefits from other pension schemes due to their visual impairment are not entitled to a claim under the BayBlindG.

The blind person's allowance can be applied for informally. It is paid monthly in advance.
