Hinweise

A business is any activity that is not socially unworthy, is aimed at making a profit and is intended to be permanent and is carried out independently in one's own name and on one's own account. It does not matter whether a profit is actually made. In particular, socially unworthy activities (e.g. clairvoyance), freelance professions (such as doctors, lawyers or tax consultants) or other activities that require a university degree are not considered to be a business. Primary production (e.g. agriculture and forestry), the management of one's own assets (e.g. a rental property) and generally prohibited or socially unworthy activities (e.g. illegal gambling) are also not considered to be a business. If you change your legal form, you must submit both a business deregistration (for closing down your business under the old legal form) and a business registration (for starting up your business

under the new legal form). Traders are natural or legal persons (stock corporation, limited liability company, registered cooperative or registered association, partnership limited by shares). In the case of partnerships (for example, civil law partnerships, general partnerships, limited partnerships), the partners authorized to manage the company are to be regarded as tradespeople. In the case of legal entities (e.g. GmbH, AG), the obligation to report lies with the person who legally represents them, for example the managing director of a GmbH. Traders are natural or legal persons (stock corporation, limited liability company, registered cooperative or registered association, partnership limited by shares). Register your business personally so that you can clarify any questions quickly and conclusively. When registering a business using a form in written or electronic form, please attach a copy of all required documents. Before a minor can register a business, the legal representatives must authorize the minor to operate a business independently and the responsible district court (family law department) must approve this authorization. From the business registration you will receive, among other things, a message: the responsible tax office the Chamber of Commerce or the Chamber of Crafts the professional association the State Office for Occupational Safety This notification does not replace a special reporting requirement. In particular, craft businesses still need to register with the Chamber of Crafts. The entry in the commercial register does not replace or include the notification according to Section 14 of the German Trade Regulation Act (GewO) (duty to notify). Business registrations are also accepted at the Hamburg Chamber of Crafts and the Hamburg Chamber of Commerce. Some commercial activities require a permit. Others are subject to supervision. Additional requirements apply to them. Find out early on what personal, financial and professional requirements you must meet in order to be able to work in these commercial areas. If your business also requires a permit (for example, security services) and you do not have one, the responsible authority can prohibit the continuation of the business. When registering a business, you are required under Section 138 of the
