Teaser	You can purchase round wood or firewood from the district forestry offices.
Volltext	<p>You can buy round wood as well as firewood or fireplace wood from ecologically certified areas (FSC and PEFC) of the Hamburg State Forests. Sales outside of Germany (export, invoicing to foreign addresses) are not possible. There is no shipping option via postal service providers/freight forwarders. Please contact the district forestry office directly to find out whether local delivery is possible. As a commercial customer or a private customer, you can choose from various types of wood such as oak, beech, alder, maple, Douglas fir and pine, which are offered in different ranges and qualities. Availability is highest during the felling season from October to March and depends on the felling planning and special events such as storms or beetle infestations. In addition to the standard sizes, you can also purchase individual sizes on request. Firewood is offered as round wood in lengths of 1 meter or 3 meters; in some cases, strong branches or crown wood can also be processed yourself. Ready-split and sawn firewood is available on request</p>
