Teaser	You must have cranes, wind turbines, sky projectors and other potential obstacles approved near the airport or airfield. Businesses and citizens can obtain information from the Air Transport Department and apply for the necessary permits.
Volltext	Are you planning to use a crane in Hamburg and are unsure whether you need a permit? Here you can check online whether a permit is required and submit the relevant application online.
Erforderliche Unterlagen	You are welcome to use our online service for cranes and simply submit your application digitally. In the case of sky beamers and other potential obstacles, an informal application with the following content must be submitted: Precise information about the installation location (street, house number and, if possible, coordinates) Period of use (day and time)

Modul	Sachverhalt
	Height of obstacle above ground Responsible exhibitor
Voraussetzungen	none
Kosten	The regular fees for the approval start at EUR 100.00 in accordance with the Costs Ordinance of the Aviation Administration (LuftkostV) plus the DFS fee for the expert opinion. The exact amount of the DFS fee cannot be specified. The fees result from the Cost Ordinance of the Aviation Administration (LuftKostV).
Verfahrensablauf	After the application has been received in good time (at least 2 weeks before the installation), the process will be passed on to Deutsche Flugsicherung GmbH (DFS) and the Federal Supervisory Office for Air Traffic Control (BAF) in accordance with § 31 LuftVG. As soon as the expert opinions are available and there are no concerns, the aviation law approval will be granted. Timely approval can only be guaranteed if the application is received here in good time.
Bearbeitungsdauer	14 days
Frist	At least 14 days before the start of the work/before the obstacle is erected
