Teaser	If you would like to work as an expert in the field of high-pressure gas pipelines, you must be recognized as an expert by the responsible body.
Volltext	<p>High-pressure gas pipelines serve public supplies. As an expert or expert, you check high-pressure gas pipes and their associated equipment before construction to ensure that they meet the quality requirements of the High-Pressure Gas Pipes Ordinance. You must also check the high-pressure gas lines for leaks, strength and the presence of the necessary safety devices before putting them into operation. You will then usually carry out a further test within one year of commissioning.</p> <p>If you want to work as an expert in the area of high-pressure gas pipelines and belong to an accredited inspection body or have certification from an accredited certification body, you also need recognition from the responsible body.</p> <p>You can be recognized as an expert or expert for</p>

Modul

Sachverhalt

high-pressure gas pipelines that serve public utilities if you are an expert

- a technical monitoring organization,
- a public materials testing institute or
- of the German Association of Gas and Water Specialists (DVGW).

However, as a DVGW expert you are only allowed to carry out tests on compressor, control and measuring systems.

Erforderliche Unterlagen

- Certificate of successful completion of studies in a technical or scientific subject at a university, college or technical college
 - For proof of personal reliability:
 - If you are resident in Germany, you usually need a certificate of good conduct to present to an authority (document type O)
 - If you are resident abroad, you need documents from your home country that prove that you have the personal reliability to perform the requested service.
 - Certificate of proof of training as an expert in accordance with DVGW worksheet G 100 or proof of affiliation with an accredited inspection body (e.g. TÜV, MPA or ZÜS) for checking the technical safety of high-pressure gas lines in accordance with the High-Pressure Gas Line Ordinance
 - Declaration by the employer that the expert to be recognized is in active professional life and that he/she is free from instructions from his/her superior or his/her employer in carrying out his/her inspection work,
 - Valid, personal or the monitoring organization-related proof of liability insurance that protects the expert against possible claims for damages arising from their expert activity (personal injury, property damage and financial loss)
 - Proof of regular participation in further training and topic-related exchange of experiences

When checking personal reliability, the approving authority can also request other documents in addition to the documents listed in individual cases, which are
