Teaser	If you operate a large combustion plant, gas turbine or internal combustion engine plant, you must continuously determine, record and evaluate pollutant emissions through continuous measurements.
Volltext	If you are the operator of a large combustion plant, gas turbine or combustion engine plant, you must continuously determine, record and evaluate their pollutant emissions through continuous measurements. You must regularly prepare an annual

Modul	Sachverhalt
	measurement report on the results of the continuous measurements and send it to the competent authority within certain deadlines if the measurement results are not already available to the competent authority through suitable telemetric transmission.
Erforderliche Unterlagen	Submit the complete measurement report if the measurement results are not available to the competent authority through appropriate telemetric transmission.
Voraussetzungen	You are the operator of a large combustion plant, gas turbine or combustion engine plant. You have put your system into operation.
Kosten	Gebühr: Es fallen keine Kosten an
Verfahrensablauf	If the measurement results are not already available to the competent authority through suitable telemetric transmission: They evaluate the continuous measurements of each calendar year. You create a measurement report based on the results. You send the measurement report to the responsible authority on time.
Bearbeitungsdauer	The processing time is not specified by law.
Frist	If the measurement results are not already available to the competent authority through suitable telemetric transmission: Submit the measurement report for each calendar year to the responsible authority by 31 March of the following year at the latest. You must keep the measurement report and the records of the measuring instruments for at least 5 years after the end of the respective reporting period.
