Handlungsgrundlage	§ 3 Organic Farming Act (ÖLG)
Teaser	If you want to operate a private inspection body for organic farming, you need a license.
Volltext	<p>Before a product can be marketed as organic food, it must be checked whether its production meets the requirements. In Germany, a system with privately approved inspection bodies has been established for this purpose. You must apply for approval for an inspection body from the Federal Office for Agriculture and Food (BLE). The approval applies to the entire territory of Germany, but can be limited to individual federal states. The application for approval must be addressed to the Federal Agency for Agriculture and Food even if the activity only relates to the federal state of Hamburg. The Federal Agency for Agriculture and Food can provide the approval with time limits, conditions and requirements or a reservation of revocation. It can also subsequently change or add new requirements. The inspection bodies approved by the Federal Agency for Agriculture and Food are monitored in Hamburg by the Authority for the Environment, Climate, Energy and Agriculture.</p>
Erforderliche Unterlagen	<p>Application addressed to the Federal Office for Agriculture and Food with the following attachments: Proof of accreditation according to the EN 45011 standard Proof of a sufficient number of qualified inspection point personnel Evidence of standard</p>

Modul

Sachverhalt

control programs for each area applied for Quality management manual with all procedural instructions
Proof of financial, professional and personnel independence
Proof of adequate insurance cover for all damage matters affected by the inspection
Additionally for inspection bodies with headquarters or branch in another member state of the European Union: Admission letter from the other country
Evidence that the branch has appropriate staff and infrastructure to carry out the control tasks

Voraussetzungen

Accreditation Demonstrable quality management
Sufficient numbers of qualified inspection point staff (the specific requirements are regulated in the approval regulations)
Standard control program for each requested control area written procedures, among other things, for carrying out the controls
financial, professional and personnel independence
Sufficient insurance cover for all possible damage matters within the scope of the inspection

Kosten

There will be charges. These depend on the processing effort.

Verfahrensablauf

The Federal Agency for Agriculture and Food is responsible for approving your inspection body. You will receive the application documents upon verbal or written request from the Federal Office for Agriculture and Food. Submit the completed application together with the required attachments by post to the Federal Office for Agriculture and Food. The Federal Agency for Agriculture and Food examines the application based on the legal requirements. Before approval, the responsible authority carries out an on-site inspection of the business premises. After the examination has been successfully completed, approval is granted. After paying the fees, your inspection point can start operating.

Bearbeitungsdauer

The processing time varies depending on the type and scope of the application as well as the quality of the documents submitted.

Frist

No
