Handlungsgrundlage	[§ 59 paragraph 2 Water Resources Act (WHG)](https://www.gesetze-im-internet.de/whg_2009/_59.html) [Wastewater Ordinance (AbwV)](https://www.gesetze-im-internet.de/abww/_1.html)
Teaser	Would you like to discharge commercial wastewater into a private wastewater plant and be exempt from the permit requirement? You must then submit an application for exemption from the approval requirement to the responsible authority.
Volltext	If you intend to discharge commercial wastewater into a private wastewater system, you will usually need a permit. However, in exceptional cases you can apply for an exception to the approval requirement. You must apply for the exemption from the responsible authority. You must have the special permit before you start discharging the wastewater.
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Informal application for exemption with further information on the type of wastewater (quantity, ingredients, place of origin) • Excerpts from the contract documents between you and the operator of the private wastewater system

Modul	Sachverhalt

Kosten	60.00 EUR - 5,000.00 EUR
Verfahrensablauf	<ul style="list-style-type: none"> • You submit your application to the responsible authority and attach the necessary documents. • If necessary, the responsible authority will request further documents from you. • The responsible authority will examine your application. • The decision of the responsible authority will be communicated to you in a written notice. • You pay an administration fee.
Bearbeitungsdauer	The processing time depends on the type and scope of your submitted application. However, you must expect a processing time of up to several months.
Frist	.
weiterführende Informationen	
Hinweise	For those industries and activities in which pollutants are to be expected in the wastewater that are not sufficiently cleaned in a municipal sewage treatment plant (e.g. chemical industry, paper production, metal processing, use of cooling water), the legislature has set requirements in the respective industry-specific appendices to the Wastewater Ordinance. In order to comply with these requirements, special measures and wastewater pretreatment systems are required to reduce the amount of pollutants so that the wastewater can then be treated without harm in a public or private sewage treatment plant.
