Handlungsgrundlage	§ 87 Water Resources Act (WHG) www.gesetze-im-internet.de/whg_2009/_87.html Section 100 of the Hamburg Water Act (HWaG) www.landesrecht-hamburg.de/bsha/document/jlr-WasGHA2005pG31/part/X
Teaser	The water register is a register of water rights. Anyone can view the water register.
Volltext	The water register is an official register, similar to the land register. You can view the water book. By viewing the water book you can obtain the following information in particular: • granted permits and authorizations as well as rights and authorities, • Planning approval decisions and planning approvals, • water protection areas, • risk areas • designated flood plains
Erforderliche Unterlagen	You must submit a written request. The application can be informal.
Voraussetzungen	no
Kosten	Simply viewing the water book is free of charge. There is a cost of EUR 1.65 per page for the creation of excerpts.
Verfahrensablauf	• You submit an informal, written request to the responsible authority to inspect the water record. • The responsible authority will examine your application. • You will be granted access or an extract will be provided to you.
Bearbeitungsdauer	Depending on the type and scope of your application,

Modul	Sachverhalt
	it may take 1-4 weeks until you can be granted access.
Frist	No

Hinweise	A separate water register is kept by the Hamburg Port Authority (HPA) for water rights in the port area (excluding discharges, withdrawals and groundwater). You can find out about the respective contents of the water registers online in the metadata portal METAVER. If you wish to inspect documents containing information about secret operating facilities and operating methods, this is only permitted with the consent of the person who has a legitimate interest in maintaining confidentiality.
Rechtsbehelf	contradiction
Kurztext	• Apply for information from the water book • The water book is a directory of water management legal relationships related to bodies of water • The water book also contains information on areas designated for water management, for example water protection areas, risk areas, flood areas • Access to the water book is possible for everyone
