Sachverhalt

the necessary measures.

- It is a justified type of activity according to a legal regulation or there are no significant doubts as to the justification of the type of activity.
- There are no other public law provisions to the contrary.
- You or the person responsible for radiation protection are permitted to practice medicine or dentistry.
- You may involve a medical physics expert to closely collaborate in your treatment.
- The necessary equipment is available and the necessary measures have been taken to ensure that the quality required for the application is achieved.
- The availability of the teleradiologist during the examination is guaranteed.
- The technical implementation is carried out by a person with the necessary expertise in radiation protection and the authorization to technically carry out the examination in teleradiology.
- A doctor with the necessary knowledge of radiation protection is present at the technical implementation site.
- An overall concept for teleradiology operations is available, which ensures the required availability of the teleradiology system. enables the teleradiologist to be personally present at the location of the technical implementation within a period of time necessary for emergency care; in justified cases, another doctor who has the necessary expertise in radiation protection can also be personally present. Regular and close integration of the teleradiologist into the clinical operations of the radiation protection officer is ensured.

Kosten

Verfahrensablauf

- You submit an application for approval or an application for a significant change to an existing approval.
- You add all necessary documents.
- If the documents or information required for processing are incomplete, you will be contacted by the processing department.
- If the requirements for approval are met, you will
