Volltext	<p>The profession of dietician is regulated in Germany. This means that in order to work as a dietician in Germany, you need a state permit. With the permit, you can use the job title "dietician" and work in the profession.</p> <p>Even if you have a professional qualification from the European Union (EU), the European Economic Area (EEA) or Switzerland, you can obtain state permission from the responsible authority in Germany.</p> <p>To obtain permission, you must have your foreign professional qualifications recognized.</p> <p>In the recognition process, the responsible body compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of the state permit. In addition to the equivalence of the professional qualification, you must also meet other requirements for the granting of the permit.</p> <p>If your professional qualification does not come from the EU, EEA or Switzerland, different rules apply.</p> <p>You can also apply for the procedure from abroad.</p>
Erforderliche Unterlagen	<p>The responsible authority will tell you which documents you need to submit. Important documents</p>

Sachverhalt

are generally:

- Proof of identity (identity card or passport)
- Marriage certificate (if your name has changed due to marriage)
- CV
- Evidence of your professional qualifications (e.g. certificates, professional certificates)
- Training certificates
- Evidence of your relevant professional experience as a dietician
- Evidence of other relevant knowledge for working as a dietician
- You do not yet live or work in Germany? Then you may have to prove that you want to work in Germany in this profession. Evidence includes, for example, applications for a job, invitations to interviews, personal statements

You usually hand in these documents later. The responsible office will inform you when you should hand in the documents:

- Proof of your personal suitability: Criminal record extract or certificate of good conduct from your country of origin. The proof must be no more than 3 months old when the application is submitted.
- Proof of your health suitability: Medical certificate. The proof must be no more than 3 months old when you submit your application.
- Proof of your German language skills: Language certificate

The competent authority will inform you which documents you must submit as a simple copy, a certified copy or the original.

- Personal Suitability: You are reliable to work as a dietitian and have no criminal record.

Verfahrensablauf

- You submit an application to the relevant authority for permission to use the professional title "dietitian" or "dietician". You can submit the application and the documents to the relevant authority or send it by post. Do not send originals. Sometimes you can also send the application electronically. The relevant authority will inform you.
- The responsible body will then check whether you meet all the requirements. An important requirement is the equivalence of your professional qualification. The responsible body will compare your professional qualification from abroad with the German professional qualification as a dietitian. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.
- If your professional qualification is equivalent and you meet the other requirements, your foreign professional qualification will be recognized. The responsible body can confirm the result in writing. You will then be permitted to use the professional title "dietitian" or "dietician".
- Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional experience, other knowledge or skills (lifelong learning). You must provide evidence of your professional experience. Knowledge and skills must be certified by an authority in the state in which you acquired the knowledge or

skills.

- It may be that the essential differences cannot be compensated for by this knowledge. In this case, your foreign professional qualification will not be recognized. You will then not be allowed to work as a dietician in Germany. However, the responsible body will tell you the essential differences and why you cannot compensate for the essential differences through your professional experience. In most cases, you can take a compensatory measure. This will allow you to compensate for the essential differences. There are various compensatory measures:

- Adaptation period: The adaptation period lasts a maximum of three years.

- Aptitude test: In the aptitude test, only those areas in which significant differences have been identified are examined. The aptitude test consists of a practical test.

- If you successfully complete the compensatory measure and meet all other requirements, you will be permitted to use the professional title "dietitian" or "dietary assistant".
