If necessary, it will request further documents or information from you. • The responsible authority checks on site whether the requirements relevant in each individual case are met. • Where appropriate, the competent authority shall consult veterinarians or other experts to assess the authorisation requirements. • The responsible authority will decide on your application. • You will receive approval and a public approval number for ABT (animal by-products) establishments, which is used for identification in the commercial documents and the mandatory records in commercial transactions. • You will receive a fee notice. • You pay the fees.
Bearbeitungsdauer	<p>There is no statutory processing period.</p>

Modul	Sachverhalt
Frist	Apply for authorization before you start your activity.
weiterführende Informationen	
Hinweise	All animal residues that are not suitable or intended for human consumption are animal by-products. These should be recycled and disposed of safely in such a way that neither the health of humans or animals nor the environment are endangered. For this purpose, animal by-products are divided into three risk categories based on the degree of danger they pose to human and animal health, which must be processed and disposed of differently (Articles 7-10 of Regulation (EC) No. 1069/2009).
Rechtsbehelf	<ul style="list-style-type: none"> • contradiction • Administrative lawsuit
Kurztext	<p>Certain activities involving handling animal by-products require authorisation</p> <ul style="list-style-type: none"> • Processing of animal by-products by pressure sterilization, • Processing methods or approved alternative methods • Incineration of animal by-products and derived products for waste disposal (except in plants with an operating permit) • Co-incineration of animal by-products and derived products as waste (except in plants with an operating permit) • Use of animal by-products and derived products as fuel • Production of pet food • Production of organic fertilizers and soil improvers • Conversion of animal by-products or derived products into biogas or compost (biogas plants and composting plants) • Treatment of collected animal by-products by sorting, cutting, cooling, freezing, salting, removal of hides and skins or specified risk material • Storage of derived products
