| Teaser | If you install or replace a heating system in your building, you must, under certain conditions, cover a proportion of the heat energy with renewable energies and provide evidence of this to the responsible authority. |
| Volltext | If you, as the owner of a building, want to replace its heating system or have one installed later, you are required under certain conditions to cover at least 15% of the building's annual heat energy requirements with renewable energy. You must prove to the responsible authority that your heating system meets this requirement. |
| Erforderliche Unterlagen | <ul style="list-style-type: none"> • Installation certificate from an expert organization • Biomethan • Bio oil • Last year's invoice for the purchase of |
| Voraussetzungen | <ul style="list-style-type: none"> • Alternatively: The owner has commissioned you as a representative of a management company or expert to submit the report. • You are the owner of a building • The building was constructed before 01.01.2009 • You have replaced or installed the heating system in this building after 30 June 2021 or will do so in the future |
