Teaser	Would you like to work as a medical radiologist in Germany? Then you need a government permit. You can have your foreign professional qualifications recognized for this.
Volltext	The profession of medical radiologist is regulated in Germany. This means that in order to work as a medical radiologist in Germany, you need a state permit. With the permit, you can use the job title “medical radiologist” and work in the profession. Even if you have a professional qualification from a so-called third country, you can still obtain state permission from the relevant authority in Germany. Third countries are all countries that are not part of the European Union (EU), the European Economic Area (EEA) or Switzerland. To obtain permission, you must have your foreign professional qualifications recognized. During the recognition process, the responsible body compares your professional qualification from abroad with the German professional qualification and checks their equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of state permission. In addition to the equivalence of your professional qualifications, you must also meet other requirements for the permit to be issued. Other requirements include, for example, sufficient German language skills and health suitability. If your professional qualification comes from the EU, EEA or Switzerland, different rules apply. You can also apply for the procedure from abroad.
Erforderliche Unterlagen	Application (available online) Documents according to leaflet (available online) Proof of language proficiency B2/ technical language test (see leaflet) Medical certificate (available online) Official certificate of good conduct according to § 30 Para. 5 BZRG
Voraussetzungen	You have successfully completed training as a medical technologist for radiology outside the European Union (EU), the European Economic Area (EEA) or Switzerland and are entitled to work there independently as a

	<p>medical technologist for radiology or medical technologist for radiology to work. You want to work in Germany as a medical technologist for radiology. Personal Suitability: You are reliable to work as a Medical Radiology Technologist and have no criminal record. Medical suitability: You can work mentally and physically as a Medical Technologist in Radiology or Medical Technologist in Radiology. You have German language skills at the required language level. This is usually language level B2 according to the Common European Framework of Reference for Languages (CEFR).</p>
Kosten	at least EUR 225, depending on the effort up to EUR 600 plus EUR 42 for the certificate
Verfahrensablauf	<p>application You compile your documents using the leaflet that you can find on our website or that you have received from us. Submit the documents together with the application in the required form. equivalence test The competent authority will then check whether you meet all the requirements. An important prerequisite is the equivalence of your professional qualification. The competent authority compares your professional qualification from abroad with the German professional qualification as a medical technologist for radiology or medical technologist for radiology. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification. Possible results of the test If there is equivalence, submit proof of your health, language and personal suitability (instruction sheet). If there is no equivalence, you will complete an adjustment measure in the form of a knowledge test or an adjustment course. You will receive further information from us on this.</p>
Bearbeitungsdauer	up to 2 months in the accelerated procedure up to 4 months in the regular procedure

You can take legal action against the decision of the responsible authority within a certain period of time (for example, lodge an objection). The decision will then be reviewed. Details can be found in the legal remedy instructions at the end of your decision. We recommend that you speak to the responsible authority first before taking legal action against the decision.

Kurztext

Permission to use the professional title of Medical Technologist for Radiology or Medical Technologist for Radiology with professional qualification from third countries Grant To work as a medical technologist for radiology in Germany you need a government permit. With the permit, you can officially call yourself a "Medical Technologist for Radiology" or "Medical Technologist for Radiology" and work in the profession. You can also obtain state permission in Germany if you have a professional qualification from a so-called third country. Third countries are all countries that are not part of the European Union (EU), the European Economic Area (EEA) or Switzerland.
