Hinweise	Immediate measures cannot be taken on the basis of the contributions, because with prolonged high temperatures and a lack of rainfall, there are currently no effective measures to prevent low water levels, the drying up of some water bodies and fish deaths. If you have seen dead fish or water pollution, please contact the contact persons from the information sheet "What to do if a fish dies in Hamburg's waters" provided in the links.
Rechtsbehelf	This is a report from you. There is no administrative procedure involved.
Kurztext	Document low water or drying out of a body of water Citizens of Hamburg can report low water levels or drying out of a body of water via online service The responsible authority checks on the basis of the reports whether and what countermeasures should be initiated.
