Teaser	
Volltext	A European Economic Interest Grouping (EEIG) may be set up by companies or other entities governed by public or private law under the national law of a Member State. It may also be set up by natural persons carrying on an industrial, commercial, craft, agricultural or professional activity or providing other services in the Community. The contract establishing an EEIG must specify the name, registered office, object of the business and, where appropriate, the name, number and place of registration of each member of the grouping, as well as the duration of the grouping, unless it is unlimited. This contract must be entered in the register provided for this purpose by each Member State. Registration gives the EEIG full legal capacity throughout the Community. Each establishment or dissolution of an EEIG is also published in the Official Journal of the European Union for information purposes.
