Teaser	The responsible health authority will advise you on your questions regarding infection protection.
Volltext	Infection control is designed to prevent the spread of disease and to protect your health and the health of the community. There are legal regulations and practical measures in place to do this. If you have any questions about infectious diseases, there is an infection control department in the health authorities. There, your questions about pathogens will be answered, such as: How should you behave in case of an infection? What are the transmission routes? How great is the risk of infection? Who provides support during treatment?
