Teaser	You have permission to take water from surface waters and would like to change your plans? Then you must apply for a change to your permission.
Volltext	<p>If you want to take or divert water from surface waters, you need a water law permit. Water is taken using pumping or scooping devices. Surface waters are rivers, lakes, canals, streams, ditches and ponds. If you would like to change a project for which you already have a permit under water law, you must apply to the responsible authority for a change to the permit. A change in permit is necessary for the following changes to the project: Type of withdrawal Quantity and duration of withdrawal Purpose of the withdrawal The permit specifies the type and extent of your use. It may contain additional conditions that you must comply with. A permit can be revoked by the responsible authority.</p>
Erforderliche Unterlagen	Which documents you need for your application varies depending on the type and scope of your project. In a preliminary discussion with the responsible authority,
