Hinweise	The permit applies only to the species and maximum number of animals with which the activity is to be carried out, as well as to the premises and facilities specified in the application. A permit issued based on incorrect information is invalid and can be revoked at any time. The responsible authority generally does not check whether building regulations, emissions control regulations, commercial regulations, or species protection regulations are met. For example, animal shelters and kennels are not permitted in residential areas under building regulations. The department therefore recommends checking with the relevant authorities regarding the requirements in other legal areas before submitting an application.
