- Proof of the authorisation of the vehicle owner to be registered

Information on the documents required for the initial registration of vehicles with

- EC type approval
- National type approval

please refer to the service description "Registering a motor vehicle" under "Requirements".

- Report on the last general inspection

The last report is required in case of re-authorisation.

- Supplement

In the case of an already registered (also deregistered) vehicle, the registration certificate part II and the registration certificate part I must be presented.

Voraussetzungen

- no overdue fees and expenses from previous registration processes.

In the event of arrears, the registration authority may not register the vehicle until these have been settled. Clarification of arrears is only possible at the Citizens' Office North in City Hall 5.

- No motor vehicle tax arrears (including ancillary tax payments, such as interest, late fees).

Motor vehicle tax accounts are verified by the Registration Office as part of the processing of the registration application. In the event of tax arrears, the registration authority may not register the vehicle until these have been paid. The amount of tax arrears can be obtained from the Bremerhaven Customs Office, telephone 0471 9842-0.

- written direct debit authorization for the collection of the vehicle tax
- Registration only at the main residence of the owner

Hinweise

On July 1, 2010, an amendment to the Motor Vehicle Tax Act came into effect. The following changes apply to registrations from 1.7.2010:

- When registering a vehicle, in addition to paying the vehicle tax (cash, EC card, direct debit authorization) for the first payment period after registration (usually 1 year), a written direct debit authorization is required to collect the vehicle tax for the following taxation periods. Even if the initial tax payment is made in cash or by EC card, please remember to submit the direct debit authorization for subsequent years. A direct debit authorization issued for the initial taxation includes the direct debit authorization for the subsequent years.

- Since July 1, 2010, export license plates have been subject to vehicle tax. Vehicle tax must be paid upon registration for the duration of the export license plate's validity (cash payment, EC card, tax collection authorization). The minimum taxation period is one month.

Paragraphs 3 and 4 of the Vehicle Registration Ordinance (FZV) regulate which vehicles are subject to registration.

- Vehicle tax exemption or reduction as a result of severe disability:
 \- Severely disabled persons with the mark "H", "BI" or "aG" in their severely disabled ID card continue to be exempt from vehicle tax. The main customs office checks whether you are exempt from motor vehicle tax. Therefore, the direct debit authorization is required from you when submitting your application. Further information can be obtained from the main customs office in Bremen.
- Electronic confirmation of insurance (eVB):
 \- You can obtain the confirmation of insurance for your motor vehicle liability insurance from the insurance company of your choice. In most cases, you can request the insurance confirmation by telephone from your insurance company.
 Since March 1, 2008, the insurer can give you an insurance confirmation with a 7-digit alphanumeric VB number, which the registration authority uses to retrieve the insurance data electronically from the central database of the German Insurance Association.

If, in the course of registration, it becomes necessary to issue a registration certificate Part II (formerly vehicle registration certificate) for the first time, the vehicle must always be identified by the registration authority by presenting the vehicle.
