Hinweise

Old documents remain valid until new ones have to be issued due to changes in the information. It is not possible to have an old vehicle registration certificate and a new registration certificate Part II or an old vehicle registration document with a new registration certificate Part I at the same time.

In the event of a change of address within the registration district, a new registration certificate Part I will be issued. If the vehicle still has old vehicle documents, the new address can be entered once in the old vehicle registration certificate. If the address has already been changed once in the vehicle registration certificate, new papers must be issued.

Technical changes - if necessary - must also be entered. This also leads to a reissue of the registration certificate Part I and Part II. If the vehicle still has an old vehicle registration document, the changes generally lead to a reissue of the registration certificates Part I and Part II.

Attention:

The change must be reported by the owner of the vehicle. If the owner and keeper of the vehicle are different persons, the keeper is also obliged to report the change.

The Bürgerbüro Mitte does not enter any technical changes in the registration certificate. To do this, please use the service "Change registration certificate I - technical change" assigned to the Bürgerbüro Nord.
