Verfahrensablauf	You can submit the application for the determination of the equivalence of your training as a curative education nurse to the competent state authority. You must submit all the necessary documents in the form of copies to the competent authority. You must submit certified copies of some documents. The competent authority will inform you. The competent body will then check: Is your professional qualification equivalent to the professional qualification in your federal state? For the comparison, for example, the content of the training and duration of the training are important. The competent body also takes into account your professional experience, other certificates of competence and qualifications. The competent body may then check other requirements. If your professional qualification is equivalent and you meet all other requirements, your professional qualification will be recognized. You will then be allowed to work as a curative education nurse in the federal state. Should the competent authority not be able to establish equivalence between your training and the German training, you will receive a notice with an explanation of the essential differences. In order to compensate for substantial differences, you can take a compensatory measure. The responsible office will inform you which compensatory measure you can take. If you successfully complete the compensatory measure, you will receive the recognition.
