Teaser	You can register the collection of your paper waste from your private household if your public waste disposal provider offers this service.
Volltext	Recovered paper is a valuable raw material. Paper products made from waste paper (recycled paper, cardboard and cartons) have a significantly lower environmental impact than paper products made from virgin fibers. Recycled paper is therefore also awarded the Blue Angel eco-label. The disposal of paper waste from private households is the responsibility of the public waste disposal authorities. Waste paper collections can also be carried out by commercial or non-profit providers (commercial or non-profit collection).
